About Us

Established in Pagaralam in 2022, PT NeoTech Digital Solutions was founded with a strong spirit to create positive change through technology. Originating from the vision of a group of young professionals who recognized the vast potential of data and artificial intelligence, the company has grown into an adaptive and future-oriented digital solutions provider. With a commitment to innovation and quality, PT NeoTech Digital Solutions strives to address the challenges of digital transformation across various industry sectors.

As technology continues to advance rapidly, PT NeoTech Digital Solutions focuses on developing innovative digital solutions, providing artificial intelligence training and implementation, and delivering data analytics services that support informed, data-driven decision-making. We are committed to helping companies and organizations adapt to the digital era through smart, efficient, and sustainable strategies—realizing a future where technology becomes a key driver of shared progress.

COMPANY VISION

To become a pioneer in technological innovation and digital transformation through the development of artificial intelligence and intelligent, sustainable data-driven solutions. PT NeoTech Digital Solutions is committed to creating a positive impact on the business world and society by delivering empowering, efficient, and future-oriented technology.

COMPANY MISSION

1. Develop relevant and adaptive technological and artificial intelligence innovations that deliver added value to industry and society.
2. Empower businesses through accurate data analytics solutions to support intelligent and strategic decision-making.
3. Provide effective digital training and services to enhance organizational capability and readiness in the era of digital transformation.
4. Uphold integrity, professionalism, and collaboration in every project to build trust and long-term partnerships.
5. Promote sustainable, technology-driven growth oriented toward innovation, efficiency, and social responsibility.

Our Services

1. AI Solutions Development

We deliver artificial intelligence solutions designed to address the specific needs of each client. Through a combination of innovation, cutting-edge technology, and a data-driven approach, we help businesses improve efficiency, automation, and intelligent decision-making capabilities.

2. Data Analytics & Visualization

With expertise in data processing and interpretation, we help companies transform complex data into meaningful insights. This service enables clients to understand trends, patterns, and business opportunities through informative and easy-to-understand data visualizations.

3. Digital Transformation Design

We support organizations in designing effective and sustainable digital transformation strategies. Through the integration of modern technologies, process automation, and optimization of work systems, we help clients adapt and excel in a competitive digital era.

4. AI Training & Tech Consulting)Design

We provide training and consulting programs designed to enhance human resource competencies in technology and artificial intelligence. Through a practical and strategic approach, we help companies build internal capabilities that are ready to face future digital challenges.

Our Advantages

5. sustainable Innovation

We continuously adapt to the latest technological developments to deliver AI and digital solutions that are relevant, efficient, and highly competitive.

4. Professional & Experienced Team

Supported by experts in technology, artificial intelligence, and data analytics, we ensure every project is executed with the highest standards of professionalism and quality.

3. Targeted Solutions

Each of our services is specifically designed to meet the unique needs of each client, delivering tangible results that directly impact business growth.

2. Guranteed Data Security

We uphold client trust by implementing strict, high-standard data security systems, ensuring all information is well protected.

1. Responsive After-Sales Service

Our commitment does not end with implementation — we provide fast, responsive, and continuous technical support to ensure our clients' long-term success.

OUR CLIENT & PROJECTS

As a strategic partner in digital transformation, PT NeoTech Digital Solutions has been trusted by companies across various industries to deliver solutions based on artificial intelligence, data analytics, and innovative digital technologies. Through strong collaboration with clients, we are committed to creating real value and sustainable results for their business growth.

Some of the clients who have collaborated with us include:

Featured Projects

1. ****AI-Powered Credit Risk System – PT Nusantara Finance Group****

PT NeoTech Digital Solutions developed an AI-based system to analyze credit risk in real-time. This solution improves customer creditworthiness assessment accuracy by up to 40% while accelerating financial decision-making processes.

2. ****Smart Learning Analytics Platform – EduSmart Institute****

We designed a data-driven learning analytics platform that helps educational institutions understand student learning patterns. With this system, schools can adjust teaching methods and significantly enhance learning effectiveness.

3. ****Automated Content Insight Dashboard – DigitalVista Media****

In collaboration with DigitalVista Media, we implemented an analytics dashboard that automatically monitors digital content performance. As a result, the editorial team can optimize content strategies based on actual data, increasing audience engagement by up to 35%.

Closing Remarks

We believe the future will be shaped by collaboration, innovation, and the courage to continuously adapt to change. PT NeoTech Digital Solutions is committed to delivering technology solutions that are not only intelligent but also create a positive impact for the business world and society at large. With a spirit of professionalism and integrity, we continue to move forward as a strategic partner in the journey toward sustainable digital transformation. Together, we realize progress through empowering technology.
